

## Data Tip: Reporting Students with Disabilities

The Civil Rights Data Collection (CRDC) collects information on students with disabilities in **two** different categories. The table below shows the definitions of the two categories that appear in the CRDC survey tables.

|  |   |
|--|---|
| <b>Students with Disabilities (IDEA)</b>             | <ul style="list-style-type: none"><li>• Students with intellectual disabilities; hearing impairment, including deafness; speech or language impairment; visual impairment, including blindness; serious emotional disturbance; orthopedic impairment; autism; traumatic brain injury; developmental delay; other health impairment; specific learning disability; deaf-blindness; or multiple disabilities and who, by reason thereof, receive special education and related services under the Individuals with Disabilities Education Act (IDEA) according to an Individualized Education Plan, Individual Family Service Plan, or service plan.</li><li>• The “Students with Disabilities (IDEA)” column in the survey items <i>always</i> refers to students with disabilities who receive special education and related services under IDEA.</li><li>• Student <i>may or may not</i> also be served under Section 504.</li></ul> |
| <b>Students with Disabilities (Section 504 Only)</b> | <ul style="list-style-type: none"><li>• Students with a disability, who receive regular or special education and related aids and services solely under Section 504 of the Rehabilitation Act of 1973, as amended, and not under the Individuals with Disabilities Education Act (IDEA).</li><li>• The “Section 504 only” column in the survey items always refers to students with disabilities who receive regular or special education and related aids and services under Section 504 of the Rehabilitation Act of 1973, as amended, and <b>NOT</b> under IDEA.</li></ul>   |

## Reporting Students

In most of the CRDC survey tables, all students will be counted in the seven race and ethnicity categories. “All students” refers to students without disabilities, students with disabilities served under IDEA, and students with disabilities served under Section 504 only. However, there are several instances in which a separate count, a subset, is collected on students with disabilities within the CRDC. The table will typically have a **Students with Disabilities (IDEA)** column, a **Students with Disabilities (Section 504 Only)** column, or both.

When a table for a survey item requires counts for both categories of students, please note that these are separate counts. Therefore, students with disabilities served under Section 504 only should not be included in the **Students with Disabilities (IDEA)** column of the table. Furthermore, if students are served under both IDEA and Section 504, then those students should be counted under the **Students with Disabilities (IDEA)** column only.

*Tables that only have a Column for Students with Disabilities (IDEA)*

For a table that collects separate counts for **Students with Disabilities (IDEA)** but does not have a category for **Students with Disabilities (Section 504 Only)**, include:

- All students in the race/ethnicity and total columns; and
- Students with disabilities served under IDEA in the Students with Disabilities (IDEA) column. These students may or may not also be served under Section 504.

Students with disabilities served under Section 504 only should be included in the race/ethnicity, total, and English Learners columns. “All students” refers to students without disabilities, students with disabilities served under IDEA, and students with disabilities served under Section 504 only.
